Chapter 105 of the Town Code is hereby amended:

By adding a new section, §105-19, entitled "Exceptions During Hunting Seasons."

By adding a subdivision (A) to §105-19 with the following text:

> The provisions of §105-5 shall not apply to the possession of weapons on public grounds during hunting seasons, as such are specified in the Environmental Conservation Law, provided that the following conditions are met:
>
> 1. Such possession is for the purpose of transit across public grounds directly to a location where the individual who possesses such weapon or weapons may lawfully engage in hunting;
> 2. Such transit is continuous and uninterrupted;
> 3. In the case of a rifle or shotgun, the chamber or chambers of the same are unloaded, or in the case of a bow or crossbow, no arrow or bolt is nocked or loaded;
> 4. The weapon or weapons are lawfully possessed and are of a type which may be lawfully used for hunting.

By adding a subdivision (B) to §105-19 with the following text:

> This section shall not be construed to permit hunting on public grounds.

RE: East Circle Drive Traffic Signal Improvements
FILE: 0101/63145

Dear Board Members,

We have reviewed the following in regard to the above referenced project for effect on Town utilities and roads and conformance with accepted engineering practice:
1) Traffic Signal Plan dated April 2016
2) Traffic Signal Details dated April 2016
3) Traffic Signal Notes and Items dated April 2016
4) Driveway Geometry Plan & Details dated April 2016

GTS Consulting prepared Items 1 to 3 and Plumley Engineering prepared Item 4.

The above materials have been prepared for improvements to the traffic signal located at the intersection of Easy Circle Drive with the entrance to Driver's Village. The improvements are being made to accommodate the proposed Byrne Dairy convenience store to be located on the southwest corner of the intersection of South Bay Road and East Circle Drive. The improvements consist of a new driveway located across from the Driver's Village driveway and replacement of the span wire traffic signal with four (4) mast arm signal poles. The materials are in general conformance with accepted engineering practice subject to the following comments:

1) It should be confirmed with the Town Attorney that appropriate agreements or easements are in place for the construction, operation and maintenance of the facilities located on private property including the Byrne Dairy and Driver's Village sites.

2) The Town Highway Department should be consulted to determine if any issues need to be addressed as a result of their review. This includes determining if any of the existing equipment or poles that are to be removed should be delivered to the Department.

Prior to the start of construction, the Developer must notify the Town and O'Brien & Gere of the proposed construction schedule. Upon provision of the construction schedule, our office will provide the Developer with an estimate for construction phase services and a time and date for a pre-construction meeting. It will be necessary for the Developer to deposit the fees prior to the start of construction.

RE: Lyons Runne Section Nos. 1 and 2A Securities
FILE: 0101/61478.113

Dear **Board Members,**

The Developer has various securities in place for the above referenced projects. The following are recommendations relative to these securities.

Siltation and Erosion Control Facilities
These securities were posted at the start of construction for the entire subdivision. Based upon a review of the status of the project it is recommended the securities be reduced from $94,880 to $14,000.

Lyons Runne Section No. 1
Subject to any comments from the Town Highway Department and the Codes Enforcement Department it is recommended the securities be released as follows:

		Original Amount	Amended Amount
1) Road construction guarantee		$ 32,000	$ 0
2) Monuments		$ 6,600	$ 0
	Total	$ 38,600	$ 0

Lyons Runne Section No. 2A
Subject to any comments from the Town Highway Department and the Codes Enforcement Department it is recommended the securities be released as follows:

		Original Amount	Amended Amount
1) Utility Maintenance Guarantee		$ 12,270	$ 0
2) Road construction guarantee and top course		$ 44,240	$ 15,700
3) Monuments		$ 1,800	$ 0
4) Stop signs		$ 600	$ 0
	Total	$ 58,910	$ 15,700

Town Board
Town of Cicero
8236 Brewerton Road
Cicero, NY 13039
Attention: Mark Venesky, Supervisor

RE: Lyons Runne Section 2B
FILE: 101/61368 and 101/60314.039

Dear **Board Members,**

Lyons Runne Section No. 2B consists of 12 single-family residential lots along Josette Junction Road. The Developer has completed construction of the sanitary sewer, drainage facilities and roads in general compliance with the approved drawings, with the exception of the items listed herein. These utilities are to be dedicated to the Town for operation and maintenance. We have estimated the value of these facilities to determine the amount of security to be posted with the Town.

The following summarizes the necessary securities required for the guarantee period:

▪ Sanitary Sewers	$20,000 @ 10%=	$ 2,000
▪ Storm Sewers	$18,000 @ 10%=	$ 1,800
▪ Swales	450 lf @ $10/lf =	$ 4,000
▪ Roads	570 lf @$10/lf =	$ 5,700
	Total	$ 13,500

In addition to the guarantee period, the Town should obtain the following securities for work not completed as noted during the site inspection on April 21, 2016:

▪ Vegetate right of way	=	$ 1,000
▪ Regrade and vegetate 300-ft of swale between Lot's 6 and 11 to provide required slope	=	$ 4,000
▪ Install asphalt top course on the road	=	$ 12,000
	Total	$ 17,000

We recommend the Code Enforcement Office and Town Highway Superintendent be consulted to identify additional securities that may be required as a result of their review.

The applicant should provide and maintain necessary siltation and erosion control measures as outlined in the approved Sediment and Erosion Control Plan until vegetation is established on all areas disturbed by construction. The Town Code Enforcement Office should begin inspecting the erosion control facilities for the Town as our office will no longer be providing inspection since utility construction is complete. During the site inspection it was noted that erosion & sediment control facilities were not installed and the road right-of-way was not vegetated.

If you have any questions or comments, please do not hesitate to contact our office.

Very truly yours,
O'BRIEN & GERE ENGINEERS, INC.

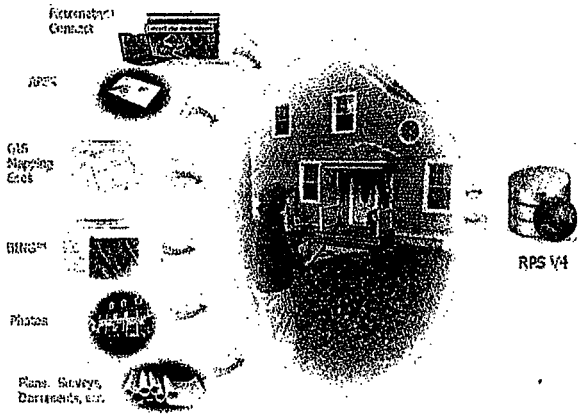
SDG Outpost Anywhere Field Assessment Proposal

Prepared by: **Systems Development Group Inc., Utica, NY**

Of **18 April 2016**

Outpost Anywhere Overview:



Based on valuable and wide ranging feedback and input from NYS Assessors and County Directors, SDG is confident that the Outpost software and system framework proposed herein will significantly benefit assessment data collection in the Town of Cicero. Cicero will benefit from essential SDG IMO and Outpost server infrastructure already maintained by Onondaga County. Priority will be given to leveraging all pertinent Onondaga County IT assets as well as the established working relationships between the Town of Cicero, Onondaga County and SDG. The proposed Outpost system will provide for:

- Accurate and efficient field data collection and review through the use of tablet devices during inspections.
- Integrated GIS links to available Onondaga County web mapping services.
- On the fly digital property record card rendering (including photos).
- Digital photo capture support for built in tablet cameras with automated RPS V4 photo upload.
- Optional Pictometry Connect integration for aerial photography.
- RPS V4 compatibility
- Mobile building sketch annotation support for Property Record Card Sketches

Note:

"A key component of Outpost's success will be Onondaga County's existing well-developed Image Mate Online and RPS V4 ecosystem of content, applications and support network already in place.

Outpost represents a mobile extension of proven SDG IMO web portal services for RPS Version 4 clients.

When an assessor buys a tablet, what she or he is really doing is purchasing a portable key to that assessment ecosystem, not just a piece of hardware.

By design, Outpost inherits the SDG IMO strategic partner integration framework. Pictometry, ESRI, Apex and additional mobile technology providers integrate well in the SDG Outpost framework.

In reality, Outpost is a natural and flexible *mobile* evolution in the NYS assessment administration (RPS) software landscape."

Project Overview:

SDG's goal is to provide the latest Outpost Anywhere mobile technology to equip the Cicero Assessors with a system that leverages the latest Samsung and Google Android tablets, complimentary Assessment and GIS related systems, datasets and services.

With Outpost, the Assessors will have a "pilots eye view" in the field to efficiently streamline inspections, data collection and review activities. Outpost supplements core RPS data with a wide range of imaging, sketch and GIS links and windows. Assessors no longer have to pull and carry property record cards for reference in the field. Conversely, automated Outpost to V4 data and photo uploads will eliminate the requirement for most data entry from memory or hand written notes when you return to the office.

The newest Samsung Android tablet displays provide for *robust 24x7 parcel and geographic visualization (snapshots) of your immediate surroundings from anywhere in your jurisdiction*. The Outpost user interface has been developed using the latest mobile software development technologies and has been optimized for tablet use. The Outpost system architecture is both flexible and extensible. As new mobile hardware options become available, the SDG technology team can modify Outpost to incorporate new mobile device capabilities. Likewise, the Outpost front end can be "re-fitted" for future upgrades to New York State assessment systems.

Outpost Anywhere Features:

1) Full compatibility and compliance with the New York State RPS V4 system.

2) Review and editing of pertinent Parcel inventory, improvement and assessment fields.

4) Easy point and tap navigation for searching and data entry.

5) Full photo capture support with the onboard tablet camera.

6) Outpost options available for Codes, DPW, Planning, Zoning, Engineering, Law Enforcement, Fire and Professional Contractors.

7) Integration options for GIS Mapping services available to the Assessors including Pictometry Connect where available.

8) Fast parcel look-ups by Municipality (SWIS) / SBL / Owner name / Street address.

Pricing:

SDG Outpost Anywhere Mobile Assessment System	~~$1,500.00~~ $1,200.00
Sentry Communication Server access with Onondaga County	
Year one licensing and technical support included	
Outpost Photo Replication Service	
Installation, Configuration and Testing	
Administrative and Assessor Field Training	
Verizon Wireless 4G LTE Cellular Data Support	$240.00/year
Samsung Tablet with protective case (Pricing depends on model)	$400.00 - $600.00 per tablet

Please let us know if you require any additional information. SDG can be reached by telephone at (315) 798 – 1328. My mobile number is 315-525-1063 and I can also be reached by email at johnk@sdgnys.com. SDG greatly appreciates this opportunity to serve the Town of Cicero.

Sincerely,

John F. Kelly
President – Systems Development Group Inc.

TOWN OF CICERO

(315) 699-1410 * Fax: (315) 699-2758

Memo

From: Karen Tavernese, Assessor

To: Supervisor, Town Board

Date: April 19, 2016

Re: SDG Outpost Anywhere Mobile Assessment System

I am requesting from the Town Board the purchase of SDG Outpost Anywhere Field Assessment System.

The county already has an existing well-developed support system in place with SDG.

The proposed Outpost system will provide for:

- Accurate and efficient field data collection and review through the use of tablet devices during inspections.
- Integrated GIS links to available Onondaga County web mapping services.
- On the fly digital property record card rendering (including photos).
- Digital photo capture support for built in tablet cameras with automated RPS V4 photo upload.
- Optional Pictometry Connect integration for aerial photography.
- RPS V4 compatibility.
- Mobile building sketch annotation support for Property Record Card Sketches.

Pricing:

SDG Outpost Anywhere Mobile Assessment System	$1,200.00
Sentry Communication Server access with Onondaga County	
Year one licensing and technical support included	
Outpost Photo Replication Service	
Installation, Configuration and Testing	
Administrative and Assessor Field Training	
Verizon Wireless 4G LTE Cellular Data Support	$240.00/year
Samsung Tablet with protective case (pricing depends on model)	$600.00 per tablet
	TOTAL= $2640.00

We would like to purchase tablet from SDG because they know exactly what tablets are compatible with the system. Other towns that have tried to purchase their own have had issues.
If we did choose to purchase our own tablets SDG has offered to match the price.

I have attached a copy of the proposal with more detailed information about Outpost Anywhere.

If you have any questions, please contact me.

Thank you,
Karen

RESOLUTION:

Councilor _____ moved for the adoption of a resolution for authorization to purchase the SDG Outpost Anywhere Mobile Assessment System for $1,200.00, two (2) tablets totaling $1,200.00 and a yearly fee of $240.00 for Verizon Wireless 4G Cellular Data Support, for a grand total amount of $2,640.00.
Motion was seconded by Councilor _____.
Ayes___and Noes____. Motion carried.

If you have any questions please contact me before the Board meeting.

From: Karen Tavernese, Assessor

To: Supervisor, Town Board

Date: April 21, 2016

Re: Copier Lease

The lease for the copier located in the Assessor's Office will expire in July 1st 2016.

I have obtained (3) quotes (see attached) for the copier lease and the results were as follows For the lowest submitted bid.

The lowest price quoted is from BIX Consultants in the amount of $137.00, which includes the service contract and no extra charge to ship old copy machine back to the leasing company.

Lease will include up to 60,000 copies/prints per year. **Black/White copies/prints over 60,000 will be billed @ .01 per click.** Being offered copies per year rather than per month saves us on overage during our busy time. The proposed equipment will be a 1-XEROX 7556 Black/White/Color Copier which is a faster machine than the other two companies are offering.

The cost savings from the current lease to the proposed leases is as follows:

- Current expense $210.00
- Proposed expense (BIX) $137.00 - **Monthly Saving $73.00 Yearly Saving $876.00**

If you have any questions, please contact me.

Thank you,
Karen

Cicero, NY 13039

Grant Award Notification: Patrol Rifles & Accessories

Dear Sgt. Snell,

The Spirit of Blue Foundation 501(c)(3) is pleased to inform you that the Cicero Police Department (CPD) has been selected to receive a Safety Equipment Grant in the form of three 5.56mm AR-15 style patrol rifles and essential accessories. The equipment will be sourced directly from a range of sources by Spirit of Blue and will be donated to the CPD.

This grant is being awarded as part of the 2015 New England Safety Grant Initiative, funded by a generous gift from the Dunkin' Donuts & Baskin-Robbins Community Foundation (DDBRCF). The DDBRCF is the charitable arm of these national food retailers, dedicated in part to creating safer communities. We applaud the DDBRCF and the brands they support for making such a strong commitment and show of support for our nation's law enforcement officers.

The grant includes the following:

- Three (3)LMT Defense CQB MRP® Defender Model 16 5.56 rifles (Model # CQB16)
- Three (3) EOTech Holographic Weapon Sights (Model 517)
- Three (3) Blue Force Gear Ten Speed Chest Rigs (Black)
- Three (3) Blue Force Gear Vickers Combat Application Slings (Black)
- Three (3) Magpul Rear MBUS Sights (Black)
- Three (3) Magpul Front MBUS Sights (Black)
- Fifteen (15) Magpul 30-Round PMAG's (Black)

The value of the grant being awarded is $8,750.40. Nothing additional will be provided as part of the grant.

In keeping with the Spirit of Blue's mission of enhancing officer safety and vitality through meeting safety equipment and training needs, this grant is intended to provide the necessary equipment for your officers to protect themselves in the conduct of their duties. The patrol rifles will enable your officers to protect themselves in a range of high-risk operations and call responses, including active shooter incidents. The additional chest rigs will allow your officers to deploy with additional magazines of

ammunition in reserve, with the enhanced sling for weapon retention. Lastly, the backup sights will allow officers to maintain aim should the electronic sight be rendered inoperative.

We are committed to working with you regarding the documents and details required to aid your agency in gaining approval to receive this grant and getting this equipment to you in a timely manner. Please feel to contact me with any questions, concerns or next steps in order to facilitate the receipt of this grant.

Again, congratulations on your agency being selected. We are hopeful that the use of this grant aids greatly in the safety of your officers and the effectiveness of your department.

Sincerely,

Ryan T. Smith
Executive Director
